

## Governance Training – Murri Munchies

### ‘Stepping Up for Murri Munchies Board Members and Management Team ’

*Good Governance - an organisation is governed well when the rules, processes and structures are clear, understood and fair—and when they have the backing and respect of the members.*

*Sounds quite daunting!!*

But not when you have the Stepping Black Team working with you to help you “Step Up to Good Governance”.

What a great three days we enjoyed at the Tom Quinn Centre in Bundaberg. Great venue! Great food! Great surrounds! Great people!

***And then there was the great training . . . . .***

The Murri Munchies Ltd Board of Directors and Advisory/Audit Committee members came together to work through the very important role played by the Board of this innovative Indigenous organisation and to plan for its future.

As a team the group worked through the various areas of what leads to ‘Good Governance’ and good management.

With the training culminating in the development of the Murri Munchies Ltd Strategic Action Plan covering the following key areas of the organisation:

- Great Ideas, Innovation & Sustainability
- Financial Viability & Sustainability
- Marketing & Operations
- Agribusiness
- Technology & Communication
- Business Incubation
- Culture

The Management Team enjoyed the relaxed presentation style of Zona, Kerry-Ann and Jenni. This coupled with the great discussions led the group towards some fantastic actions for the future.

The Stepping Black Team has remained in contact with the Murri Munchies Board members as they support them to achieve the goals they established at the training days. The Stepping Black Team has also assisted Murri Munchies Ltd with grant writing for future development funding access.

***Thanks to DEEWR for their commitment of funding for this great workshop.***
